Alonzo L. Plough, Ph.D., MPH, Director

July 20, 1998

Gerald Brown
Ash Grove Cement Company
3801 East Marginal Way South
Seattle, WA 98134-1147

Dear Mr. Brown:

The Seattle-King County Health Department has completed the site hazard assessment (SHA) of the Ash Grove Cement Company site, as required under the Model Toxics Control Act. A determination of no further action (NFA) at this site has been made by the Washington State Department of Ecology based on this SHA.

For your information, Ecology will be publishing the results of this, and other recently completed SHAs in the August 18, 1998 special issue of the Site Register.

Ecology reserves the right to initiate further investigation of this site where new information is received indicating a potential/actual threat to human health and/or the environment through the release of hazardous substance(s).

If you have any questions or comments relating to the SHA determination of NFA, please contact me at (206) 296-4830.

Sincerely,

Carsten Thomsen
Sr. Environmental Health Specialist
